

2014-2015 IGETC FOR CSU OR UC

Intersegmental General Education Transfer Curriculum

NAME _____ STUDENT ID _____

This is an unofficial document and is subject to change each year. Users should always refer to www.assist.org for the most updated official information.

The Intersegmental General Education Transfer Curriculum (IGETC) is a pattern of courses that California community college students can follow to satisfy lower-division general education requirements at any California State University (CSU) or University of California (UC) campus. IGETC is not advisable for all transfer students. Students should meet with

a counselor to determine the appropriate general education option for their transfer goal.

If following the IGETC is the appropriate decision, students will be required to complete all courses with a 'C' grade or better (or the equivalent) in order to ensure their use for this pattern. Students are strongly encouraged to request an IGETC certification prior to transferring. To request certification, students must check the appropriate box on the transcript request form and file it with the Admissions and Records Office.
