The rose-colored ink printed in the oval "Heatsealer Security Spot" at the bottom of this document reacts to changes in temperature, and is a special security feature designed to help instantly verify this transcript's authenticity. When exposed to heat, the ink in the oval spot disappears. When exposed to cold, the ink in the oval spot reappears. If this rose-colored ink is not visible, expose the transcript to cool air. If exposure to cool air does not make the rose-colored ink reappear quickly, the authenticity of this transcript should be questioned and verified with the San Diego Community College District by calling Student Services at 619-388-6929. This transcript also has a micro-print border around this box that can be viewed with a magnifying glass. In addition, the top two horizontal lines print "SAN DIEGO COMMUNITY COLLEGES" in micro type. The bottom lines and the box around the Registrar's signature print "THIS IS A SECURE DOCUMENT" and can be read through a magnifying glass. This transcript contains an artificial logo watermark - hold at light to view.
