YEAR ONE'S DONE

Guide to Completing Transfer Requirements

TODAY'S TOPICS

- Transfer Timeline
- Deciding on a Major
- Major Prep Coursework
- Researching Campuses
- Admission Requirements
- Create Your Team
- Next Steps

TRANSFER TIMELINE

The transfer timeline is very individual. Set a goal and work toward obtaining it. Your goal will depend on your situation.

IF YOU HAVE NOT DECIDED ON YOUR MAJOR YET . . .

Reflect on the classes you have taken

- Which ones were really interesting to you?
- What career path could you enter within that discipline?
- Talk with faculty in the discipline to learn more.

Consider your strengths

- Do you enjoy working with people, things or data?
- If you have had paid or volunteer experience, what tasks did you excel at?
- What do others tell you you are really good at doing?

Need more help?

- Consider taking Counseling 6
- Make an appointment in the Career Hub to explore more

Remember your major does not have to determine your entire future!

Major Preparation Requirements

USING ASSIST.ORG

Assist.org is a tool for CA Community College (CCC) students who are working toward transfer to a CSU or UC. It will layout what classes to take at a CCC to meet the major prep courses at a CSU/UC.

REQUIRED VS RECOMMENDED

As you research majors, it is important to recognize the courses that are required and those that are recommended. As you review ASSIST or campus websites be sure to pay attention to the wording as well as the use of "or" as well as "and".

MATH

Many majors have a requirement for math and instead of taking any transferable level math class, you want to take the required math class. For example, Psychology requires statistics, but English majors typically can take any transferable level math class.

DOUBLE COUNTING GE/MAJOR PREP

A lot of courses for your major can double count for GE, so take advantage of this! For example, a History major will find many classes for the major on multiple sections of the GE sheets. So, be sure to look closely at your requirements!

Research Campuses

WHICH CAMPUS IS RIGHT FOR YOU?

Where Will You Thrive

Consider the size of the campus, faculty to student ratio, academic atmosphere and the student body.

Who Has Your Major

Not every school has every major and not every major is the same at every campus.

What Will It Cost

Being aware of cost is being a smart consumer, know your budget and how much you are willing to borrow.

Think Geographically

How far from home are you willing to go? What climate suits you? What kind of campus landscape do you want?

Visit Campuses

Conduct virtual visits and watch student Vlogs to determine which campuses you want to physically visit.

ADMISSION REQUIREMENTS

BE IN THE KNOW

60 transferable units
CSU (1-99)
UC (1-47)

CSU - Area A & B4 &
30 units of GE
UC - 2 English, 1
math & 4 courses
from GE

Minimum GPA
2.0 for CSU
2.4 for UC
But many impacted
schools or majors
require higher

Impacted majors may
require certain classes
or a specific GPA

Requirements for CA
Independent and Out
of State schools vary,
so check their
websites

CREATE YOUR TEAM WHO WILL HELP YOU SUCCEED?

*Counselors and
Transfer Center*

*University
Representatives*

*SRJC Faculty
and Staff*

*Family and
Friends*

NEXT STEPS

- **Decide on your transfer timeline**
- **Determine your major**
- **Finalize your college list**
- **Update ed plan with a counselor**
- **Apply for admission**
(Fall = Nov / Spring = July & Aug)
- **Research and apply for scholarships**

QUESTIONS?

*Don't hesitate to ask or reach out to the
Transfer Center!*
